Hi! My name is _____ from _____ High Schools trap team. I am raising funds to help offset my cost. We are selling HybridLight Solar Powered Flashlights that are ultra-bright with a 160 Lumen LED. They are super durable, and can hold a charge for 7 years when stored. These Flashlights are great for preparedness, emergencies, and daily use. They recharge with solar along with any other light source and through Micro USB. You will never have to buy a battery again, and **they can even charge your cell phone!** These Flashlights run for 25 hours on a full charge. Everybody has a flashlight, but this one works every time you touch it. Each light comes with a life-time guarantee!

By ordering these lanterns, not only will you get a great, dependable, cellphone charging flashlight, but you will also be helping me. Can you help me with my school sport?
